ORGANIZATION TIPS

- ★ Use clear bins so kids can see what's inside.
- ★ Label with pictures & words for easy matching.
- ★ Keep frequently used toys at your child's eye level.
- ★ Rotate toys every few weeks to keep things fresh.
- ★ Do a quick toy reset together each night.

QUICK RULE OF THUMB

If it's not used, loved, or adding value to your child's play... let it go to make room for what truly matters.

REMEMBER

A organized toy space creates a calmer home and teaches kids responsibility!
